### Brief account of incident

A contractor working at the facility suffered a fatal injury while exiting a tower. The cause of the incident is unknown at this time, but we do know that the individual experienced a fall of some distance inside the tower.

The facility Emergency Response Team responded to the scene of the incident. The contractor was transported to Mainland hospital where he was pronounced dead.

All work in the area has been stopped, the scene secured and the night crew held over to aid in the investigation. We are in the process of ensuring all appropriate notifications have been made.

The facility is in the process of assembling a joint Union/Management investigation team, which will include an external Team Leader and Root Cause Specialist to determine the root cause of the accident.
